Dear Sir:

RESPONSE TO SPECIES ELECTION

This paper responds to the Office Action mailed February 8, 2002, in connection with the above-identified patent application.

Formal have been submitted directly to the draftsman under separate cover this day.

The Office Action has required the election of a single species, assumably for searching purposes only. Applicants traverse the election requirement, but nevertheless elect herein the species of Formula II in claim 21, wherein Q is NR¹³ or R^{7A}, and W is CR^{18R7}. A

specific compound falling within this election is compound II-4, in Table 7 on page 48 of the present specification. Applicants assume that the election is for searching purposes only, and that should the elected species described above be found free the prior art, the full scope of the claims will be examined. Should the Examiner hold a different view, Applicants respectfully request that the Examiner so inform Applicants' undersigned attorney.

It is believed all of the claims presently before the Examiner patentably define the invention over the prior art and are otherwise in condition for ready allowance. An early Office Action to that effect is, therefore, earnestly solicited.

Respectfully submitted,

Michael Straher
